

I agree with this petition. I feel that it should be an option instead of a requirement to learn the morse code. This world is made up on options like how many different sodas are out there. If morse code is made into an option in all classes then there would be no gripes or complaints as to who or who can not go on HF or elsewhere. If morse code is an option on all classes then where morse code is being used on frequencies, make that part an option that each class can not go unless that option is on their class. Add an extra letter to their call sign (example "M"KG4FCQ M = morse code)
But I agree is should not be a requirement just an option.
